Which countries are supplying porcelain or china tableware and kitchenware to Denmark? How important is Denmark compared to others in terms of the entire global and regional market? How much do the imports of porcelain or china tableware and kitchenware vary from one country of origin to another in Denmark? On the supply side, Denmark also exports porcelain or china tableware and kitchenware. Which countries receive the most exports from Denmark? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for porcelain or china tableware and kitchenware in Denmark. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for porcelain or china tableware and kitchenware for those countries serving Denmark via exports, or supplying from Denmark via imports. It does so for the current year based on a variety of key historical indicators and econometric models.
