

## The Nog Sisters

Award-winning writer Ian Fraser's *The Nog Sisters* is not a story for children. In a world very close by, on a small island beneath a brown sky, two fairies still believe in the existence of humans. Their friends, the jungle monkeys think they're crazy. The local giant Worms are nervous, their ancient texts refer to an apocalypse brought about by fairies searching for the imaginary race known as humans. Even the Goblins aren't convinced. But the fairy sisters, Fritha and Tirna Nog have other ideas... In a world very close by, two little creatures set out on a big adventure. *The Nog Sisters* is an epic tragi-comedy of very small proportions. ABOUT THE AUTHOR Ian Fraser is a multi-award winning playwright and author. He grew up in South Africa. Penguin Books published his autobiography, dealing with his army experience under Apartheid. His work was nominated for and gradually began winning most of the South African theatre awards. He relocated to the USA in 2006.
