

The 2011 Import and Export Market for Beauty or Make-Up Skin Care Preparations, Sunscreen, Suntan Preparations, and Manicure and Pedicure Preparations in Thailand

On the demand side, exporters and strategic planners focusing on beauty or make-up skin care preparations, sunscreen, suntan preparations, and manicure and pedicure preparations in Thailand face a number of questions. Which countries are supplying beauty or make-up skin care preparations, sunscreen, suntan preparations, and manicure and pedicure preparations to Thailand? How important is Thailand compared to others in terms of the entire global and regional market? How much do the imports of beauty or make-up skin care preparations, sunscreen, suntan preparations, and manicure and pedicure preparations vary from one country of origin to another in Thailand? On the supply side, Thailand also exports beauty or make-up skin care preparations, sunscreen, suntan preparations, and manicure and pedicure preparations. Which countries receive the most exports from Thailand? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for beauty or make-up skin care preparations, sunscreen, suntan preparations, and manicure and pedicure preparations in Thailand.
