

The 2009 Import and Export Market for Parts of Centrifuges, Centrifugal Dryers, and Filtering and Purifying Machinery in South Korea

The 2009 Import and Export Market for Parts of Centrifuges, Centrifugal Dryers, and Filtering and Purifying Machinery in South Korea

By
Professor Philip M. Parker, Ph.D.
Chair Professor of Management Science
INSEAD (Singapore and Fontainebleau, France)

On the demand side, exporters and strategic planners focusing on parts of centrifuges, centrifugal dryers, and filtering and purifying machinery in South Korea face a number of questions. Which countries are supplying parts of centrifuges, centrifugal dryers, and filtering and purifying machinery to South Korea? How important is South Korea compared to others in terms of the entire global and regional market? How much do the imports of parts of centrifuges, centrifugal dryers, and filtering and purifying machinery vary from one country of origin to another in South Korea? On the supply side, South Korea also exports parts of centrifuges, centrifugal dryers, and filtering and purifying machinery. Which countries receive the most exports from South Korea? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for parts of centrifuges, centrifugal dryers, and filtering and purifying machinery in South Korea. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics which appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for parts of centrifuges, centrifugal dryers, and filtering and purifying machinery for those countries serving South Korea via exports, or supplying from South Korea via imports. It does so for the current year based on a variety of key historical indicators and econometric models. In what follows, Chapter 2 begins by summarizing where South Korea fits into the world market for imported and exported parts of centrifuges, centrifugal

dryers, and filtering and purifying machinery. The total level of imports and exports on a
