

The 2009 Import and Export Market for Preparations for Perfuming or Deodorizing Rooms in Hungary

On the demand side, exporters and strategic planners focusing on preparations for perfuming or deodorizing rooms in Hungary face a number of questions. Which countries are supplying preparations for perfuming or deodorizing rooms to Hungary? How important is Hungary compared to others in terms of the entire global and regional market? How much do the imports of preparations for perfuming or deodorizing rooms vary from one country of origin to another in Hungary? On the supply side, Hungary also exports preparations for perfuming or deodorizing rooms. Which countries receive the most exports from Hungary? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for preparations for perfuming or deodorizing rooms in Hungary. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics which appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for preparations for perfuming or deodorizing rooms for those countries serving Hungary via exports, or supplying from Hungary via imports. It does so for the current year based on a variety of key historical indicators and econometric models. In what follows, Chapter 2 begins by summarizing where Hungary fits into the world market for imported and exported preparations for perfuming or deodorizing rooms. The total level of imports and exports on a worldwide basis, and those for Hungary in particular, is estimated using a model which aggregates across over 150 key country markets and projects these to the

current year. From there, each country represents a percent of the world market. This market is served
