

## Mary Shelleys Frankenstein (Illustrated)

Mary Shelleys Frankenstein, and the numerous movies inspired by it all have one thing in common: the title. Beyond the name, Hollywoods green monster and Shelleys creation are a world apart. There are no cheap thrills in Shelleys Frankenstein, and the book has remained popular for nearly two centuries because it truly belongs with the classics. Shelleys message is more powerful today than ever, as mankind grows closer to bringing her nightmare to reality. In a world of cloning and gene splicing, where man plays God on a daily basis, we should all take heed of the Frankensteins lesson. Prepare to be surprised by this novel, it is a one-of-a-kind, in style and content. Cryptic illustrations, provided by Richard Moyer, spark the imagination without spoiling the images of the minds eye.
