

The Tatler: Selected Essays; With an Introduction and Notes (Classic Reprint)

Excerpt from The Tatler: Selected Essays; With an Introduction and Notes It seems strange in these days of Extracts and Selections that the Volumes of the Tatler should never have engaged the attention of an Editor to lay its gems under contribution. Though not enjoying the popularity of its more famous successor, the Spectator, there are yet in its pages Essays which, for humour, wit, charms of style and knowledge of human nature, are as deserving of study and perusal as any in the English language. Nor as contributions to the history of the period are they less worthy of attention. Politics, fashion, literature, the tastes and prejudices of the day are all there to be met with, and shed a light upon the reign of Queen Anne not reflected elsewhere. Yet the Tatler is preeminently one of those works on the shelves of our literature which are often spoken of, occasionally quoted, and never read. This neglect no doubt arises from the mass of obsolete and uninteresting matter in which the readable Essays are so embedded as to be practically smothered. The work therefore lends itself especially to the scheme of selection. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
