Book 1 of the Remedy Z series. Things were a mess well before the Great Change of 2027. It had been a consumerist world, filled with greed, laziness and consumption. Weaponised and airborne, the Divine virus spread like wildfire and turned people into junkies, bringing them low and eventually evolving to take full control of human consciousness. Simply put, it turned everyday people in slobbering, seemingly mindless hosts for an insidious viral colony: zombies. Amongst the horror, only a few people survived. The immune became known as Survivors and were less than 10% of the population. But being immune was far from a guarantee of survival; teeth, claws and an insatiable hunger for flesh saw to the near-extinction of mankind. One lone survivor was Jesse Stadler; a man who had been gifted with immunity and the right upbringing to fight, survive and sustain in the most unnatural world that was left behind. In a remote alpine location, Jesse has sought refuge, alone. But he cannot hide from the world outside, nor can he escape facing the horrors of the past. This is his story...
