

Ice and Shadow

Two bestselling novels of science fiction adventure set in the Forerunner universe from legendary storyteller Andre Norton together for the first time. *Ice Crown*: Roane, a young archaeologist, makes planetfall on a previously off-limits world where the inhabitants have been implanted with false memories and conditioned to obey their oligarchic masters. Now Roane must fight to save the enslaved populace and her own inner essence by locating a powerful artifact that could bring new freedom to a planet locked in slavery. *Brother to Shadows*: Jofre, a young initiate to the assassins guild in a far future world, is betrayed and cast out by a corrupt nemesis. To save himself, Jofre must team with a crafty reptilian alien ally to find the hidden hoard of Forerunner technology and go forth and to find his destiny beyond the stars. At the publishers request, this title is sold without DRM (DRM Rights Management).
