(Music Minus One). A band with a great female lead singer is a winner. This book showcases the styles of legends such as Etta James, Aretha Franklin, Linda Ronstadt, Gloria Gaynor, Blondie and others. Tunes are true to the original tempo, key, and parts. In songs where there are multiple guitar or keyboard parts, we demonstrate how to pick out the most important ones. Each book is customized for the individual instrument with instruction on determining those parts. You will find the signature parts of each song notated along with helpful hints on everything from sounds to style. Each song has a complete chord chart with measure numbers so that we can help you find where the licks happen in context. This book/CD pack is perfect to use as an educational tool, a play along product, or a rehearsal partner. Songs: At Last * Chain of Fools * Dancing in the Streets * Heatwave * I Will Survive * One Way or Another * Respect * We Are Family * When Will I Be Loved? * You're No Good.
