

His Fingerprint

This book of poetry was written over a period of the last 25 years of my life. Many of the poems were spiritually inspired for physical and spiritual healing, and encouragement. Others were written for specific friends or co-workers at important milestones in their lives. The most important element, in all but a few is to exalt the Lord in what he has done and will do in our lives. The joy and peace that he has given me is indescribable. To know him is to love him. His grace has provided each of us with numerous gifts that will bless our lives immensely. All we have to do to receive his grace is to accept him as Lord and Savior of our lives.
