

## Limbo and Other Essays

It may seem curious to begin with Dante and pass on to the Childrens Rabbits House; but I require both to explain what it is I mean by Limbo; no such easy matter on trying. For this discourse is not about the Pious Pagans whom the poet found in honourable confinement at the Gate of Hell, nor of their neighbours the Unchristened Babies; but I am glad of Dantes authority for the existence of a place holding such creatures as have just missed a necessary rite, or come too soon for thorough salvation. And I am glad, moreover, that the poet has insisted on the importance of the beings thus enclosed; because it is just with the superior quality of the things in what I mean by Limbo that we are peculiarly concerned. And now for the other half of my preliminary illustration of the subject, to wit, the Childrens Rabbits House. The little gardens which the children played at cultivating have long since disappeared, taken insensibly back into that corner of the formal but slackly kept garden which looks towards the steep hill dotted with cows and sheep. But in that corner, behind the shapeless Portugal laurels and the patches of seeding grass, there still remains, beneath big trees, what the children used to call the Rabbits Villa.
