

Rescue Charlie (The Worlds Edge Book 1)

For a thousand years the god emperor has watched the Motisle Protectorate with hatred and envy. His murdered father once ruled those lands, until the uprising and his death at the hands of their goddess ended it all. For a thousand years he has rebuilt the ruins of the empire he inherited, marshalling his armies, tightening his grip. He is not as weak as his father was, and he will have vengeance. His time has come. The Protectorate is in steady decline. The goddess has not been seen in centuries. The once great cities are crumbling, the vaunted navy a shadow of its former self. Its people are corrupt and decadent. There will be nothing to stop him. There are still people who will resist. Captain Halieou, sacrificing his life for his honour. The disgraced Lieutenant Kotter of the grand old warship, Piper. Chancellor One, haunted by an ancient demon. Lydia Shainessy, on a mission of mercy to an old noble house that has fallen into disrepute. Their sacrifice will not be enough. The forces aligned against them are simply too great. Yet salvation will come, and from an unexpected direction. William Devarre, an offworlder, a scientist, a man who does not believe in magic. A man whose only objective is to find the lost researcher Charles Wentworth. Despite his efforts to avoid the conflict he will be drawn into it. It is very possible he can become more powerful than all the gods themselves if only he believes.
