

Precaution

It is now somewhat more than a year, since the friends of James Fenimore Cooper, in this city; were planning to give a public dinner to his honor. It was intended as an expression both of the regard they bore him personally, and of the pride they took in the glory his writings had reflected on the American name. We thought of what we should say in his hearing; in what terms, worthy of him and of us, we should speak of the esteem in which we held him, and of the interest we felt in a fame which had already penetrated to the remotest nook of the earth inhabited by civilized man.
