

How to Trust God & Build Faith

What is faith? What is trust? What does it mean to trust God? How does one build or grow his or her faith? Magic pills? Some holy incantations? In this book you'll discover some vital secrets to growing your faith. You'll learn exactly what to do and how to do it. You'll come to realize, after reading this book that trusting God and growing faith is something that anyone can do. It is not reserved for those who are super spiritual or have years of Bible studies and education to guide them. Truly, God is no respecter of persons. The key to a growth in one's faith is found in some very simple steps. If you understand what faith really is, you'll understand how to employ faith, that is, how to exercise your faith. You see, we all have a measure of faith given to us by God. But, it's kind of like having money in the bank and not using it. Do you do things that will grow your faith? Do you step out in faith on anything in your life? If not, you should. This is designed to help those who struggle with not having enough faith, or being unable to know what it means to walk with God in faith. It will help you, provided you can hear the message. Don't count on the Pope, Benny Hinn, Billy Graham, Charles Stanley, James McDonald, Bob Jones, or any other preacher to build or grow your faith. That's a job strictly left to you and God. But, if you don't know how to apply biblical principles designed to grow your faith, you'll stagnate and your faith will wither. This is written by a Christian lawyer who, for some years, struggled with the issue of walking by faith. What did that mean? After reading hundreds of books and hearing hundreds of sermons, he finally learned the answer. But, it didn't come from those hundreds of books, as useful as some of them were. It didn't come from any of the sermons, as helpful as some of those biblically based messages were. It came from a single book. It's called The Bible. Take the journey with him and

learn the secret to growing and building your faith.
