

## The Creator (Love Is the Nature of Existence Book 4)

Love Is the Nature of Existence, consists of five volumes, and is intended for those who wish to better understand the state of our world today, and how it got this way. George Orwells book, 1984, examines how those who control the present re-write the past in order to determine the future. Love Is the Nature of Existence carefully details the history of human civilization, thus revealing the actual truth about what is happening today. Did the Third Reich fall, or are we still experiencing the same disease of mind that led to the execution of 6 million Jews, the mentally challenged, physically disabled, gypsies, homosexuals, and others deemed not worthy of life, liberty, or the pursuit of happiness? Love Is the Nature of Existence, reveals that the sickness has grown, and spread to every part of the globe since the Second World War. Mankind never managed to learn from the greatest lesson history had to provide. The First World War, ended approximately twenty years prior to the WWII, and was supposed to be, The War to end all Wars. We have a new Fuhrer; Nigel Shindler asserts he is, Big Brother; hes everywhere, but hes hiding, and that a world without coercion, oppression, and domination, will only be possible, when mankind is free from His subversive form of tyranny. The goal for all of us should not be control, but genuine liberty!!
