

The 2011 Import and Export Market for Stoppers, Caps, Lids, Capsules for Bottles, Threaded Bungs, Bung Covers, and Seals of Base Metal in Malaysia

On the demand side, exporters and strategic planners focusing on stoppers, caps, lids, capsules for bottles, threaded bungs, bung covers, and seals of base metal in Malaysia face a number of questions. Which countries are supplying stoppers, caps, lids, capsules for bottles, threaded bungs, bung covers, and seals of base metal to Malaysia? How important is Malaysia compared to others in terms of the entire global and regional market? How much do the imports of stoppers, caps, lids, capsules for bottles, threaded bungs, bung covers, and seals of base metal vary from one country of origin to another in Malaysia? On the supply side, Malaysia also exports stoppers, caps, lids, capsules for bottles, threaded bungs, bung covers, and seals of base metal. Which countries receive the most exports from Malaysia? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for stoppers, caps, lids, capsules for bottles, threaded bungs, bung covers, and seals of base metal in Malaysia. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics which appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for stoppers, caps, lids, capsules for bottles, threaded bungs, bung covers, and seals of base metal for those countries serving Malaysia via exports, or supplying from Malaysia via imports. It does so for the current year based on a variety of key historical indicators and econometric models. In what follows, Chapter 2 begins by summarizing where Malaysia fits into the world market for imported and

exported stoppers, caps, lids, capsules for bottles, threaded
